

# New Orleans Wards with Katrina Flood Layer 090205

**New Orleans Districts and Wards**

When you are in New Orleans, you will hear people give directions, or talking about the city in terms of wards. The term comes from the city's voting districts, which are called wards. The natives will pop this piece of jargon off without stopping to think, whether you are from here or not.

There are 17 wards in the city and you will hear the natives refer to this or that ward.
